Prototype

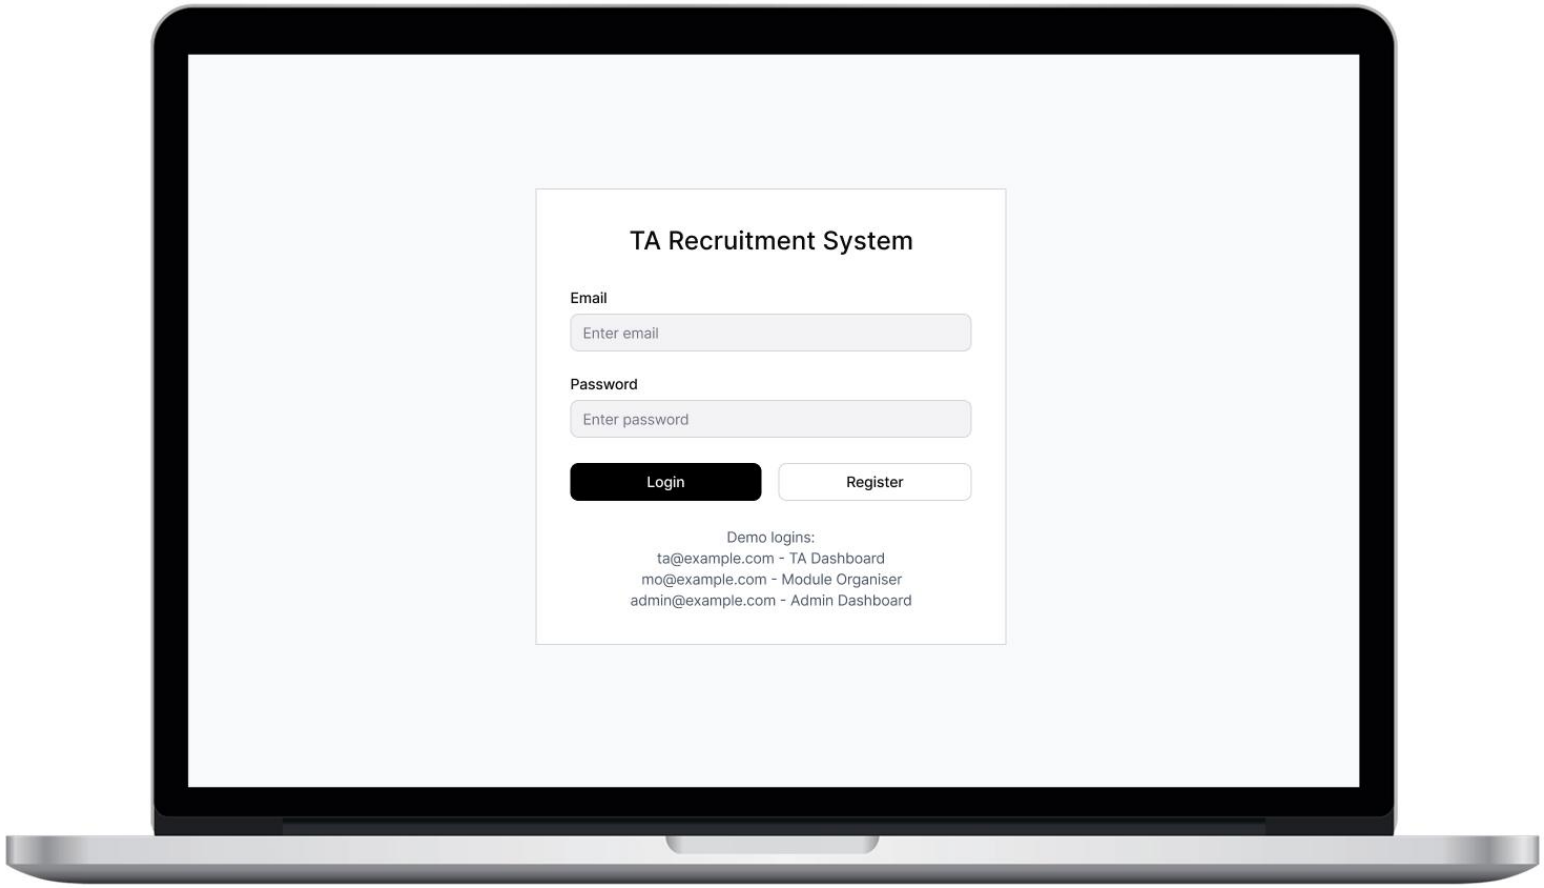
for BUPT International School TA Recruitment System

Group 6 | First Assessment | 22nd March 2026

Group Leader：Xingtong Yue (x.yue@se23.qmul.ac.uk)

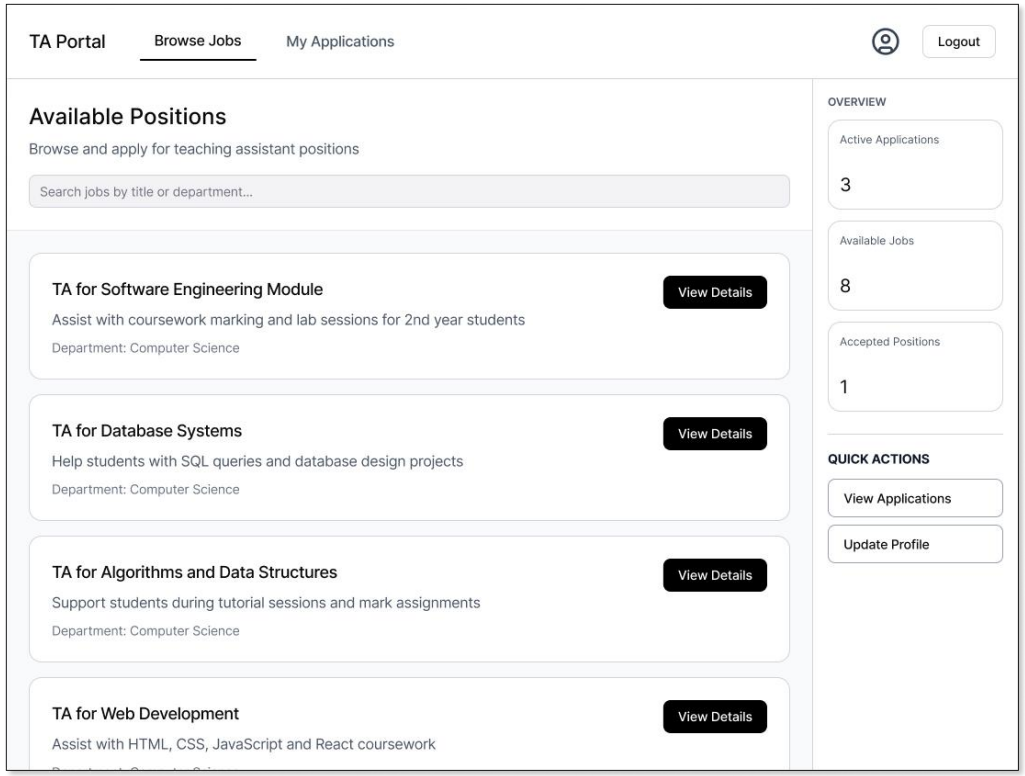
Interactive Prototype：https://roast-model-89325170.figma.site

Home - Login/Register Page

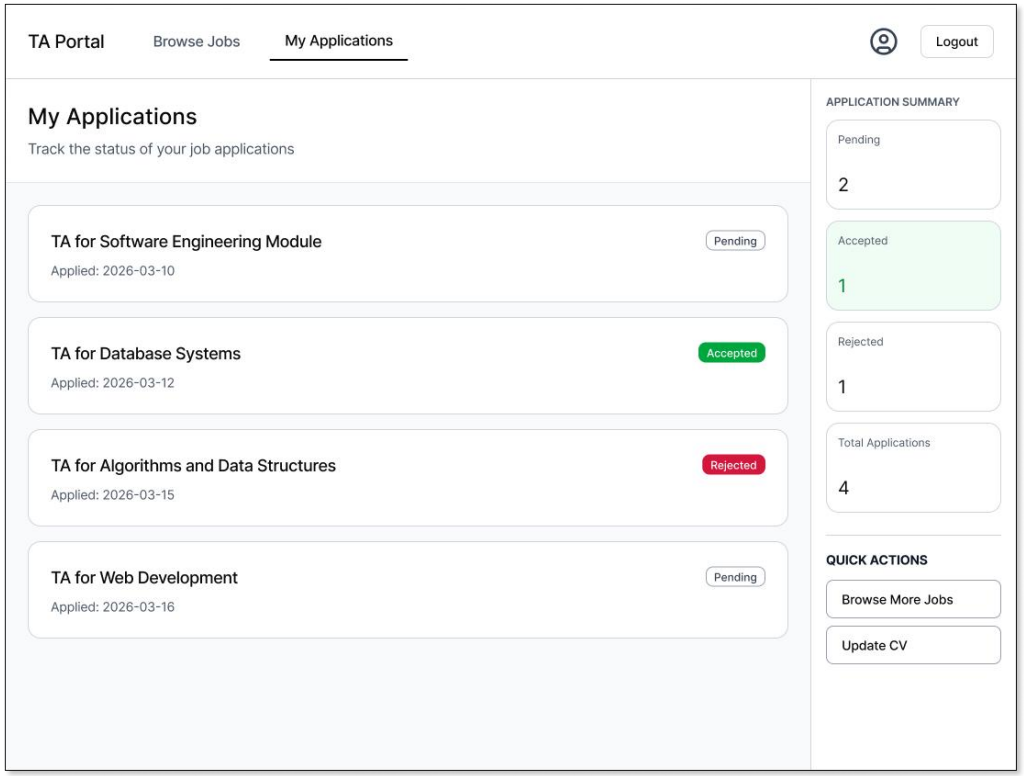


The application entry point.
Users log in with their email, and the system redirects them to the corresponding dashboard based on their role.
Users can log out to return here.

TA - Dashboard · 2 Core Functionalities



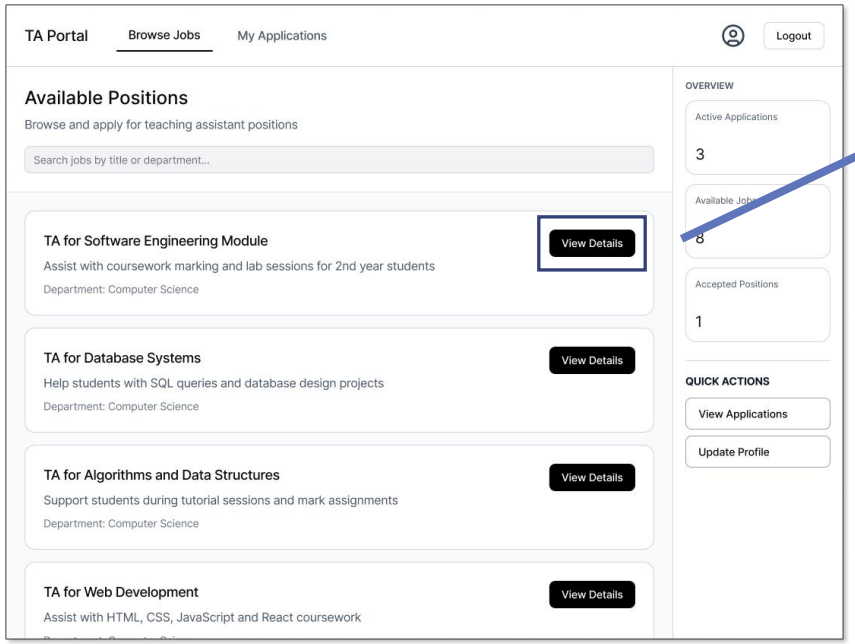
Browse Jobs (browsing available TA positions)



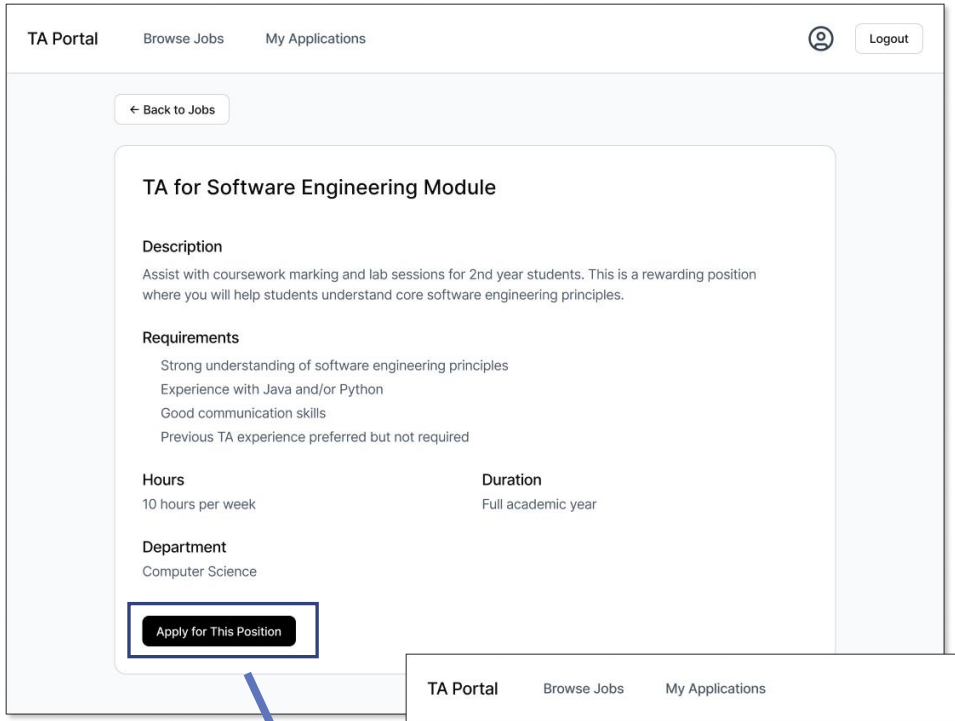
My Applications (tracking application status)

The TA dashboard features two main tabs in the top bar: Browse Jobs and My Applications. The default landing page shows all available jobs.

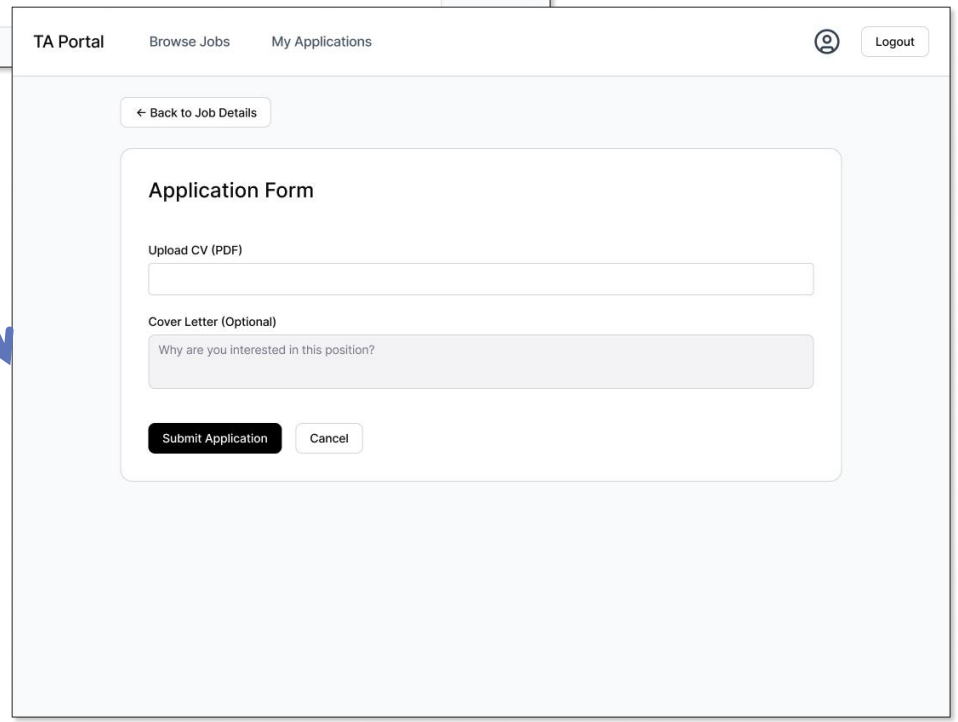
TA - Application Workflow



TA - **Browse Jobs**
browsing available TA positions



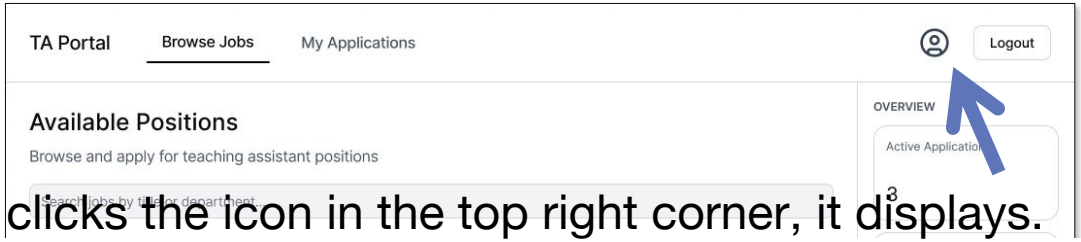
TA - **Job Details**
View detailed job information



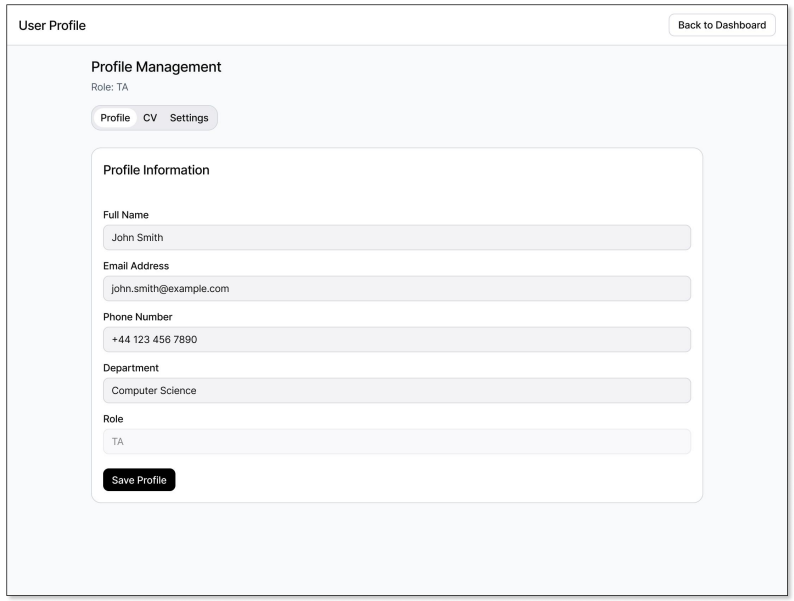
TA - **Application Form**
submit an application

3-step application workflow (browse → view details → apply)
ensures intuitive and efficient TA job application operations for all users.

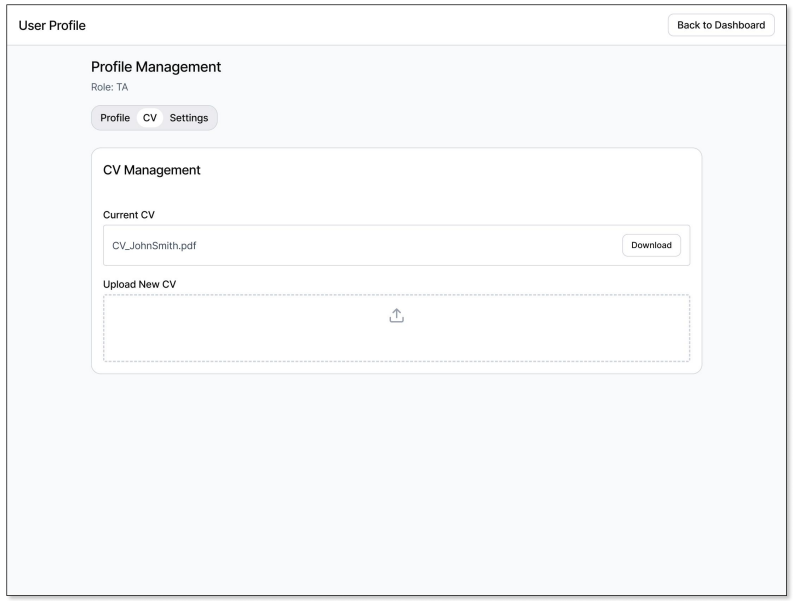
TA - Profile Management



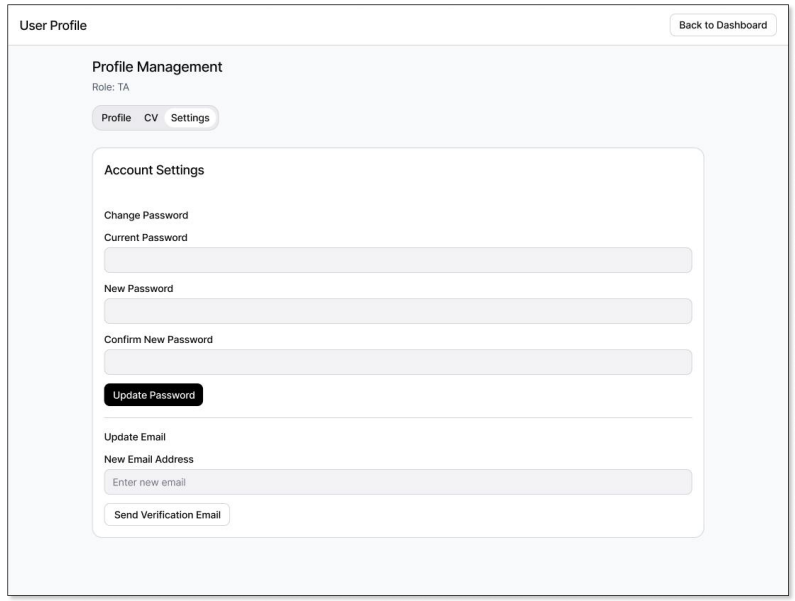
When the user clicks the icon in the top right corner, it displays.



TA - **Profile Information**
View and edit personal basic information

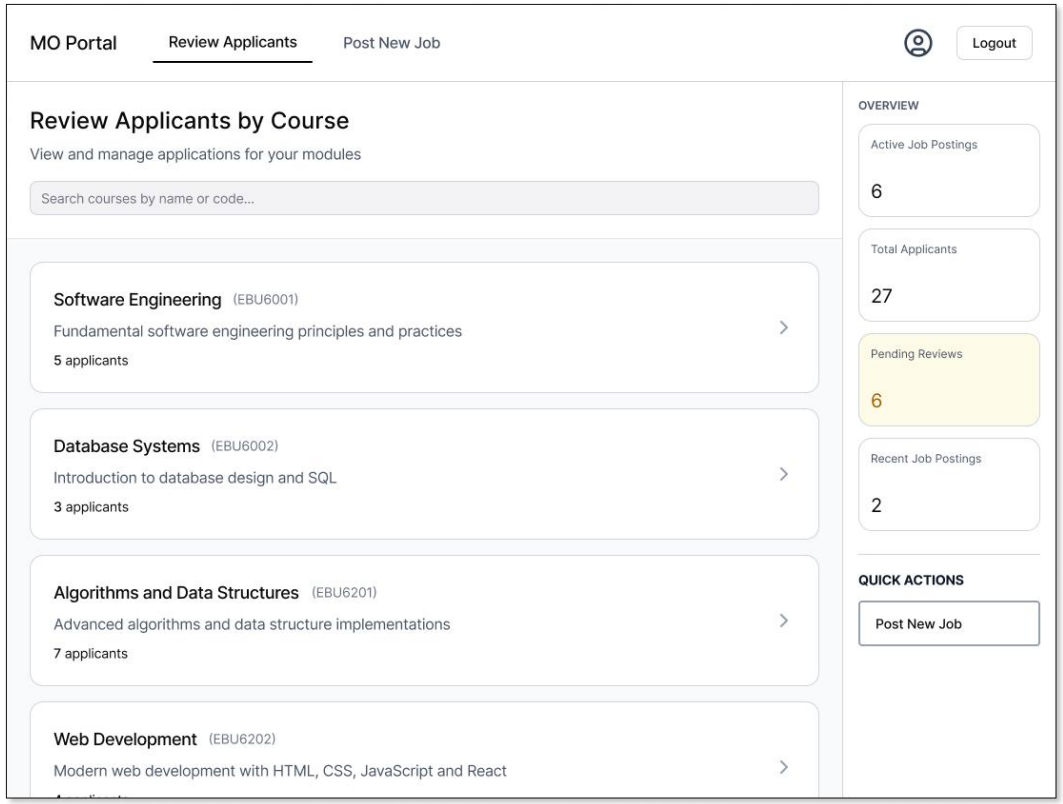


TA - **CV Management**
Upload and update application CV



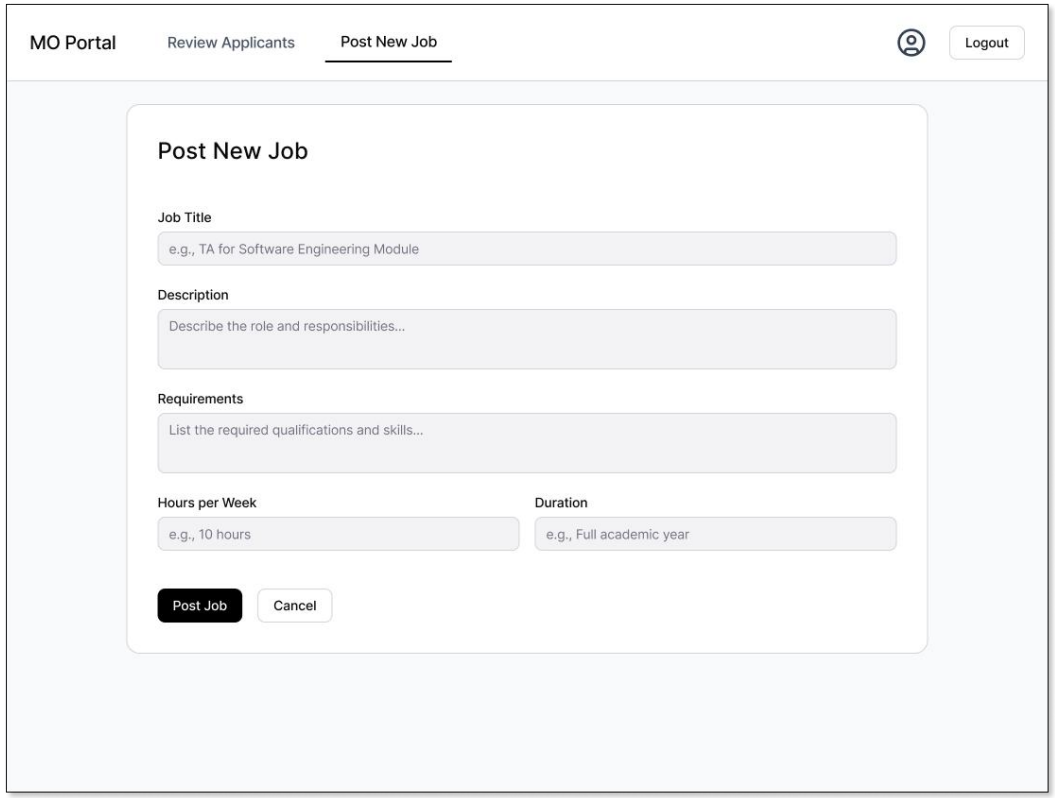
TA - **Account Settings**
Manage account security and preferences

MO - Dashboard · 2 Core Functionalities



MO - **Review Applicants**

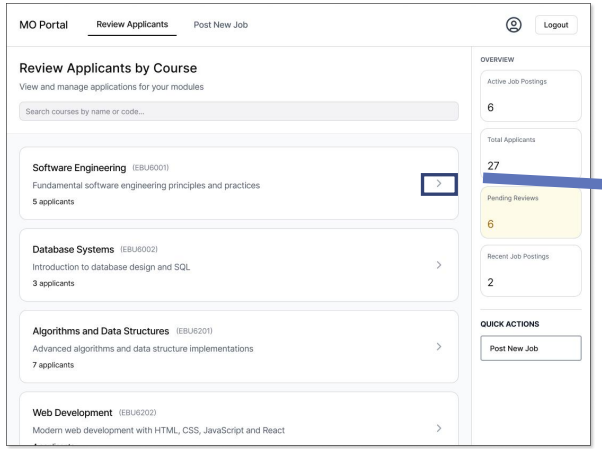
Manage and screen TA applications for assigned courses



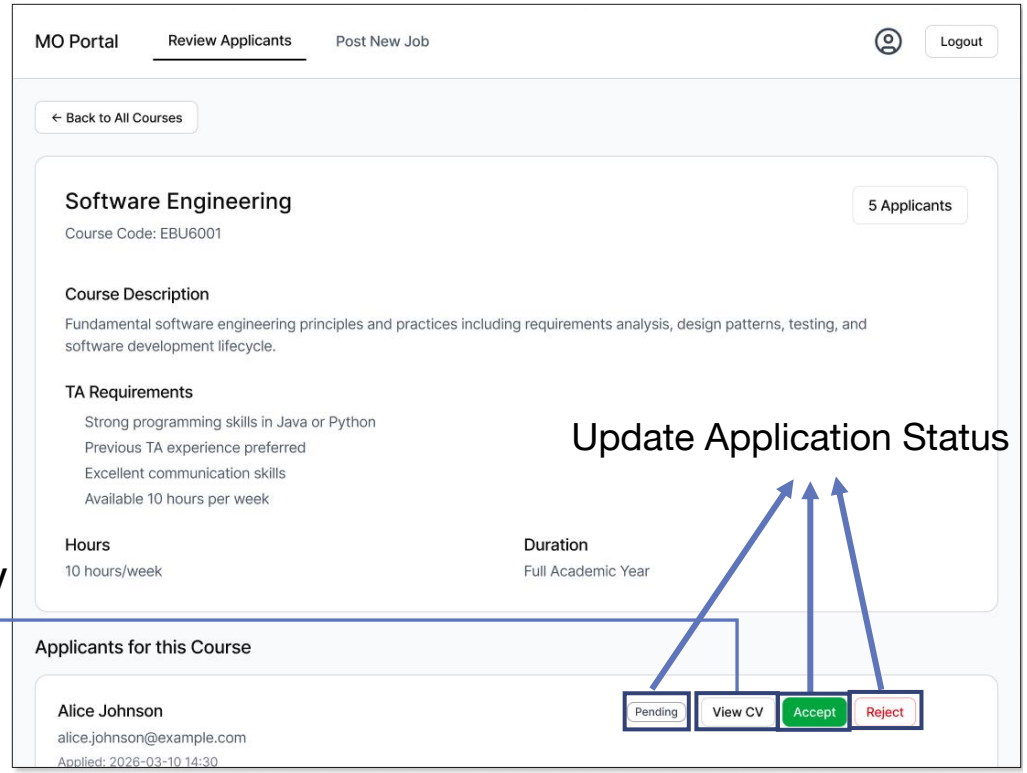
MO - **Post New Job**

Create and publish new TA job postings with detailed requirements.

MO - Review Applicants

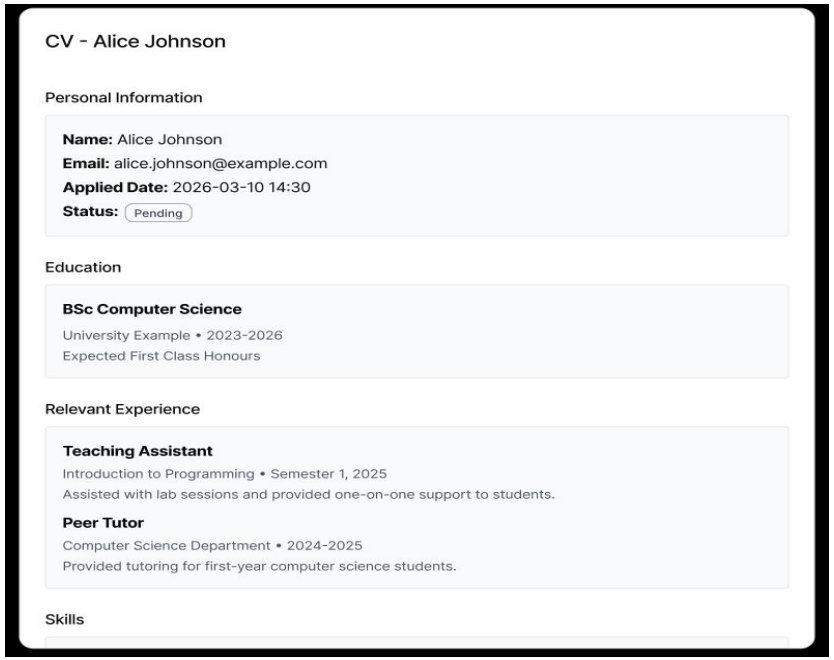


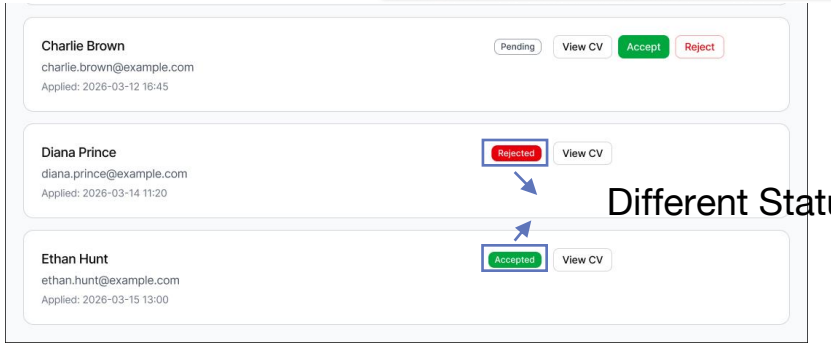
Select Course & View Applicants



Update Application Status

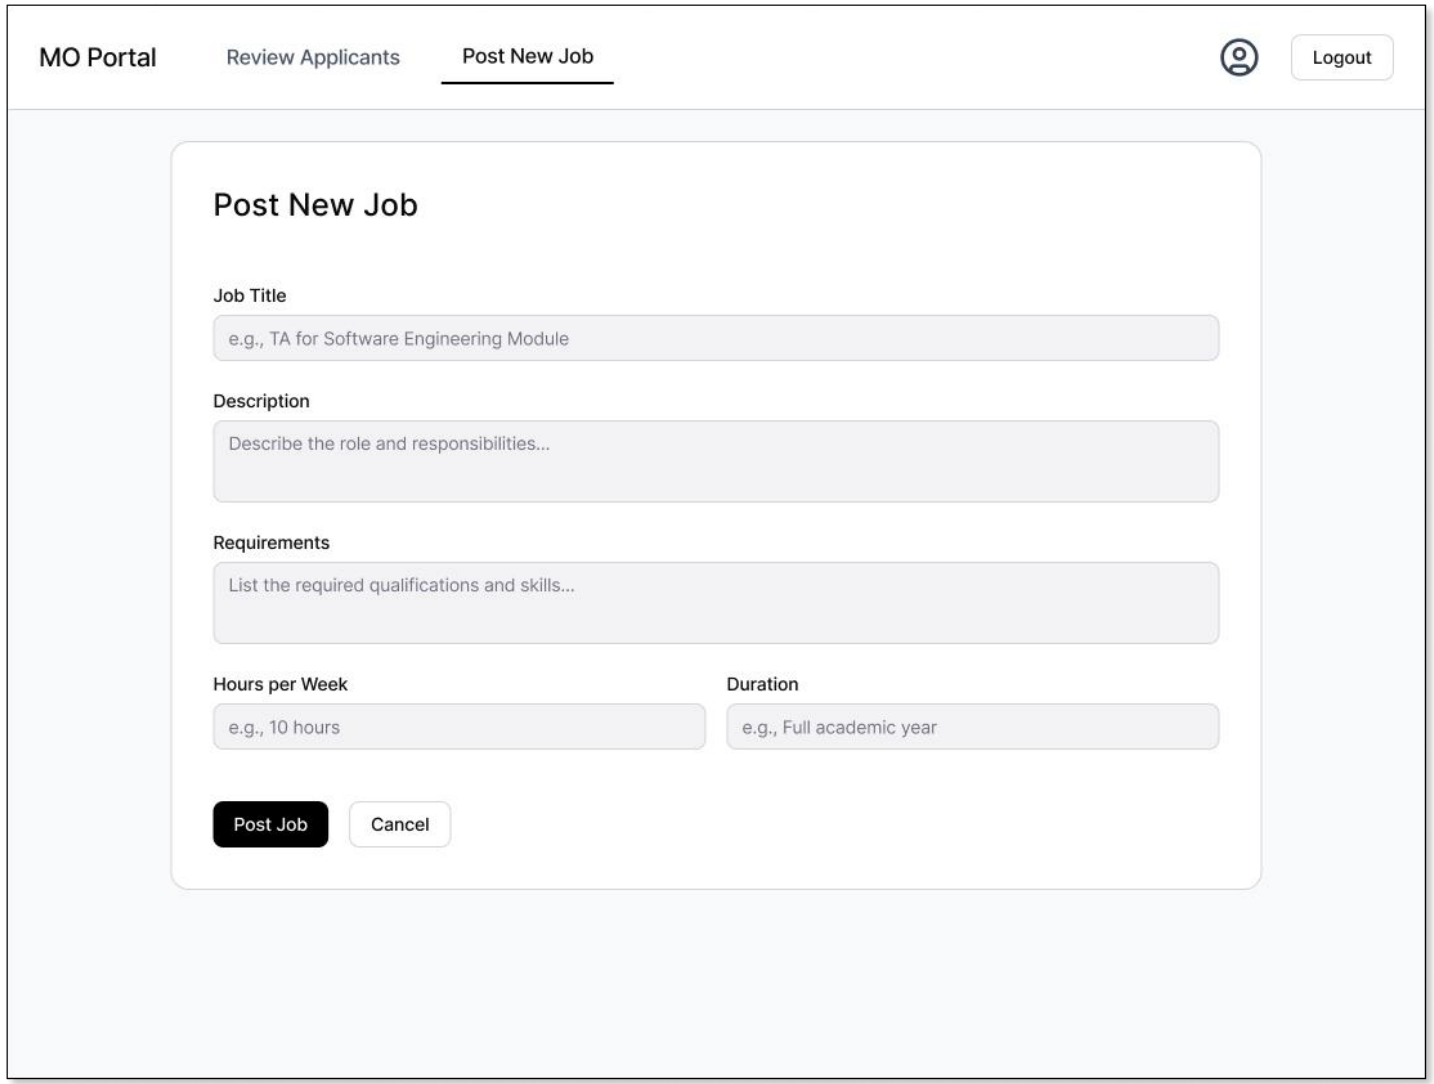
View Applicant CV





Different Status

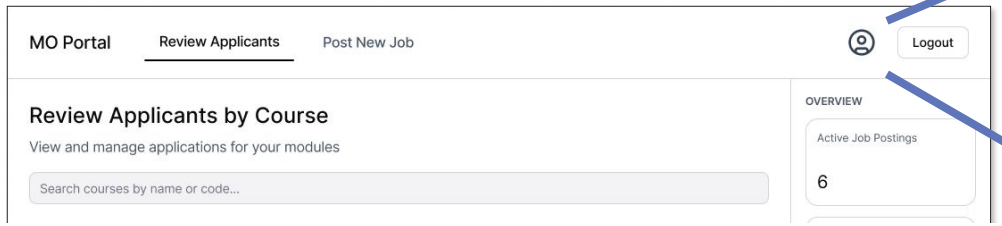
MO - Post New Job

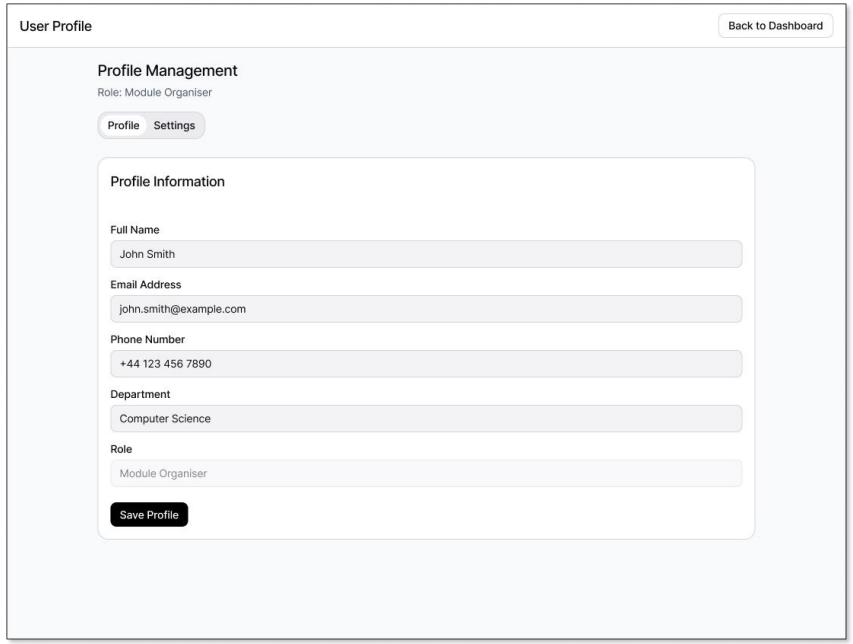


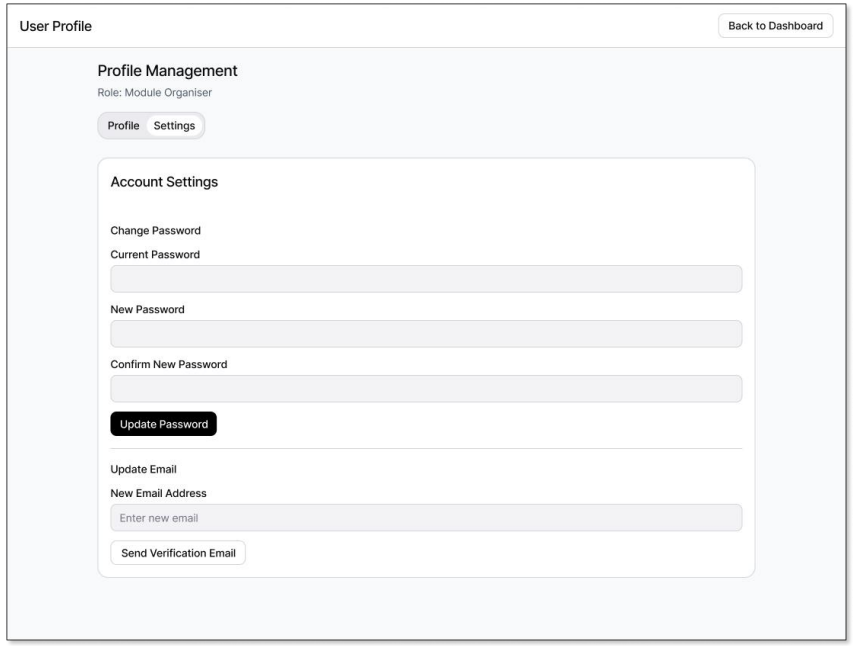
MOs can create and publish new TA job postings by selecting the 'Post New Job' tab in the top navigation bar.

The form allows MOs to input key details such as job title, description, requirements, working hours, and duration, ensuring all necessary information is provided for applicants.

MO – Profile Management



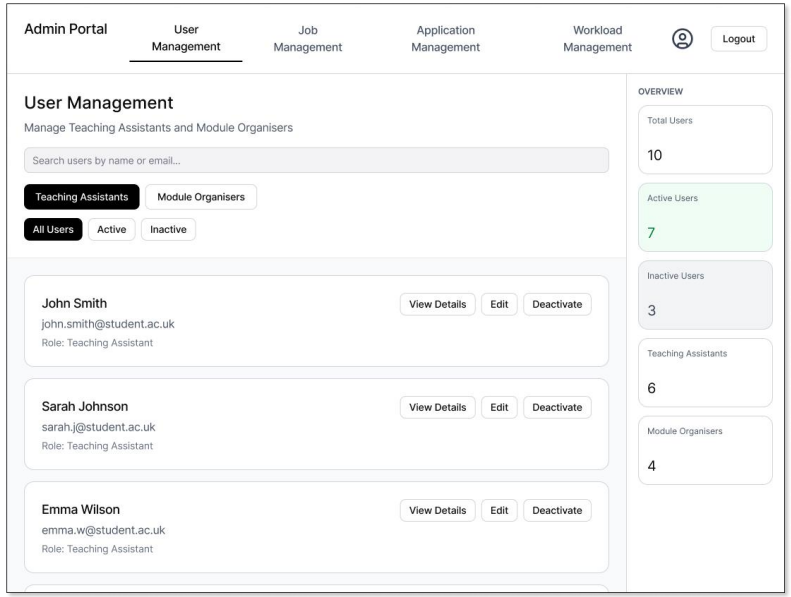


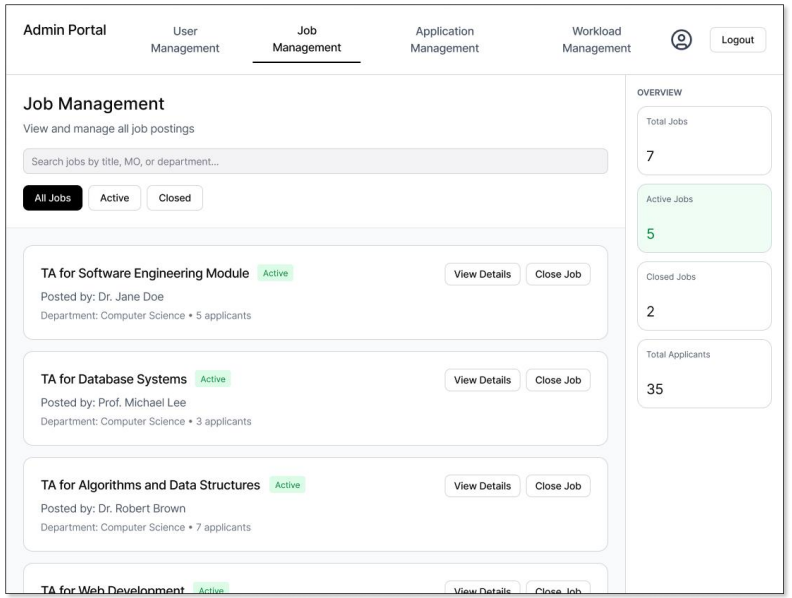


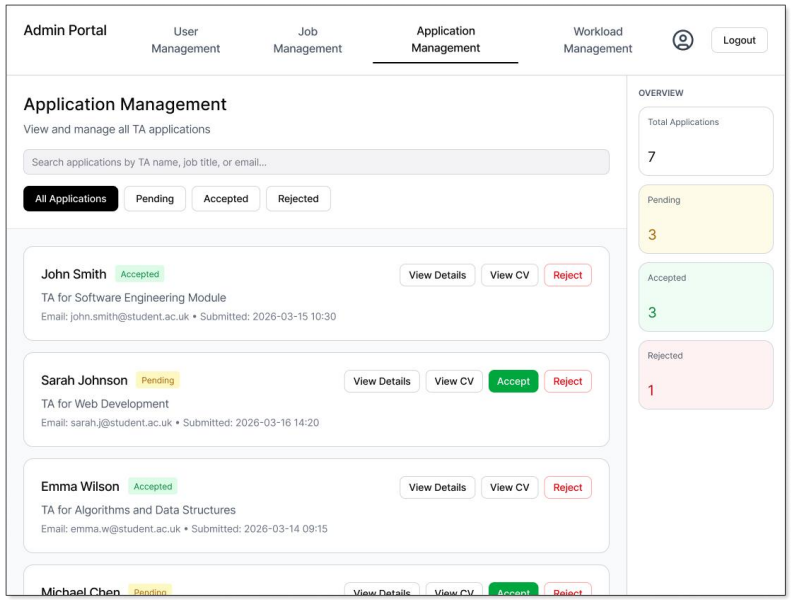
MOs access profile management via the top-right avatar to manage personal info and account settings, **with no CV management function** (unlike TA users).

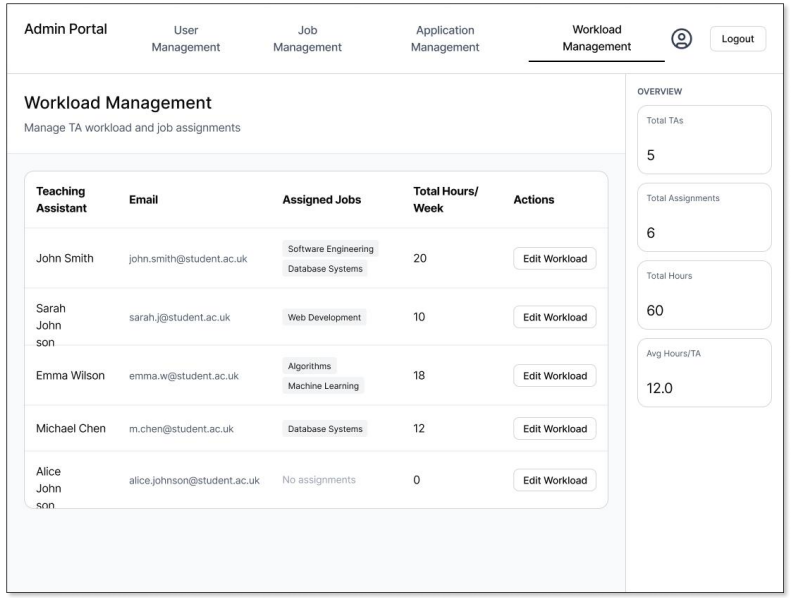
Admin - Dashboard · 4 Core Functionalities

The Admin Dashboard provides a comprehensive overview of the system









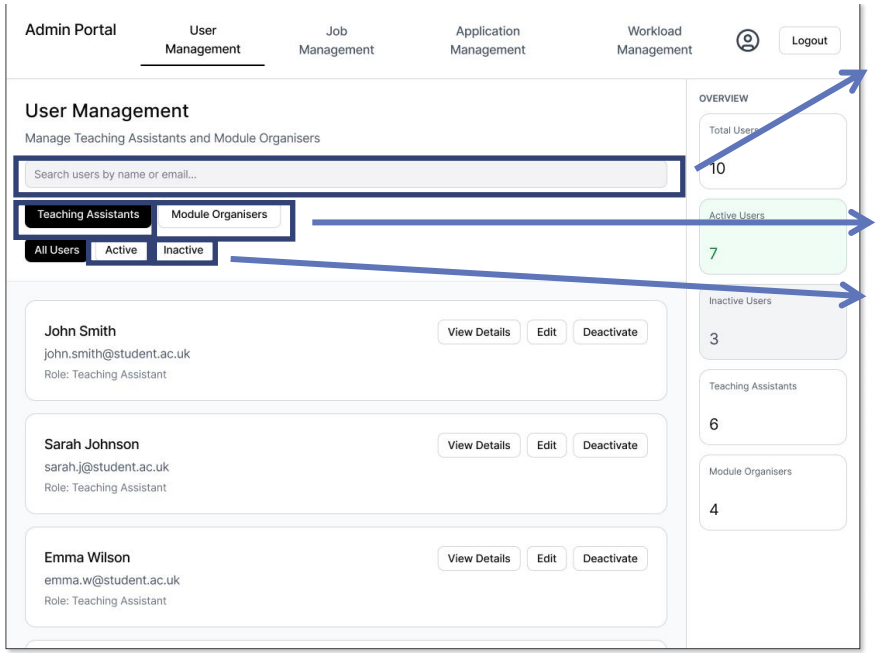
left: **User Management**
Manage all system users

right: **Job Management**
Oversee all TA job postings

left: **Application Management**
Track all TA applications

right: **Workload Management**
Balance TA workloads

Admin - User Management



Precise Search: Search for users by name or email address.

Advanced Filtering: Filter users by role (TA/MO) or account status (Active/Inactive).
